

## About Us

Dinoct empowers regulated businesses to achieve healthcare cyber safety, healthcare interoperability, enhance security and maintain compliance posture of cloud workload.

Using industry standard frameworks, controls & best practices like NIST CSF, CIS, HL7<sup>®</sup> FHIR<sup>®</sup> HL7 v2<sup>®</sup>, DICOM<sup>®</sup>, HHS 405 (d) we design, build and manage cloud workloads for the technology stack.

As an AWS & Google Cloud partner with certified engineers, healthcare, life science & financial industry expertise, we bring perfect solutions to minimize risks and protect the digital assets.

Simplify  
**Your Security**  
and Achieve Compliance

## Our Vision & Mission

Dinoct vision is to be the trusted and reliable partner for cloud technologies that drive our client's innovation and digital transformation.

Our mission is to help regulated businesses achieve cyber safety, interoperability, improve security and compliance of cloud workloads.

## Our Services

Managed  
Reliability

Managed  
Security

Managed  
Compliance

## Our Solutions

### Healthcare Cybersecurity

- HHS 405(d) suggested best practices
- Identity and access management (IAM)
- Extended detection and response (EDR)

### Healthcare Interoperability

- Meet HIPAA & ONC's 21st Century cures act
- HL7 v2<sup>®</sup>
- HL7<sup>®</sup> FHIR<sup>®</sup>

### Managed CloudOps

- Fully managed cloud operations
- Security & Compliance
- Security audits

## Our Client Says

*"Dinoct has handled our HL7 interface development and support and we've been very pleased with the interface engine software as well as their customer service and technical expertise. We now have production interfaces with a number of hospitals that help us retain our customers' business."*

 **Srinivas Raghavan**  
CTO, ReadySet Surgical

## Proud Projects

- HL7 Interoperability Engine (GCP)
- Migration to HIPAA Platform (AWS)
- Multi-Region Cloud Workload for Healthtech (AWS)

Please visit our website for more details.

## Why Choose Us?

- AWS & Google Cloud Partner
- AWS & GCP certified engineers
- Turnkey solution to build & streamline right cloud for the workload, security & scale
- Implement best practice principles, industry standard framework and controls like NIST CSF, CIS, HL7® FHIR®, HL7 v2®, DICOM®
- Meet the HIPAA and other regulatory requirements
